Expertises

Languages :

- Full professional proficiency of english
- French : mother tongue

Computer science :

- Programming (Python, JavaScript)
- Embedded system (Raspberry pi / Arduino)
- API
- AWS – GCP (for serverless applications and machine learning)

Automation :

- Matlab, Simulink, Simatic step 7, Unity pro, Vijeo Designer

Mechatronics :

- CAO (Onshape, Kicad)

Managment :

- Service Now (ITBM) & Freshservice (ITSM)
- Gantt, pert

Office equipments :

- G suite, Prezi, Microsoft office

Education

2019 : **Engineering degree in Computer, Electronic/Electrical Engineering and Automation** Polytech, Lille (59), France

2015 : Technical University Degree Electronical Engineering and Computer Science IUT Nancy-Brabois , Nancy (54), France

2013 : High School Diploma majoring in Science, Lycée Jeanne d'arc, Nancy (54), France

Experiences

Since May 2018 : **Responsible for digital applications**, Bonduelle, Lille, **France**

Implementation of innovative solutions and evolutions of a project management tools

March-June 2017 : Affective and werable computing to support the transmission of afection between geographically separated loved ones, UABC, Ensenada, **Mexique**

Design a jacket and a mobil application

June-August 2016 : Automation Improvement Specialist, Nestlé Waters, Buxton, Derbyshire, **Royaume-Uni**

Worked in engineering department – develop an E-learning course

April-July 2015 : Research/development, Nestlé Waters, Contrexéville (88), **France**

Programming an E-learning course about electric and automation

Interests and achievements

EESTEC : Electrical Engineering Students European Association

Sport : Judo (black belt, first Dan), Badminton (team) , Swimming, Snorkeling, Mountain bike

Reading : Science news

Entreprenarial project challenge: Sport and well-being prize, awarded by the European Metropolis of Lille
